EDUCATION

SIMON FRASER UNIVERSITY

Bachelor of Science in Computer Science, AI Concentration, & Minor in Statistics
January 2023 – Present (expected completion: April 2027)

VANCOUVER COMMUNITY COLLEGE

UT Science Certificate | January 2022 – December 2022

TECHNICAL SKILLS

Languages: Python, C, C++, R, HTML, CSS, & SQL.

Tools and Systems: Git, GitHub, VS Code, PyCharm, Docker, MATLAB, Jupyter, RStudio, & Figma.

Data and ML: Numpy, Pandas, Matplotlib, Tkinter, PyKalman, & StatsModel, Scikit-learn.

Other: Agile (Scrum), UML.

PROJECTS

Gender Traits in Psychological Data

April – August, 2025 | Python, Pandas, Scikit-learn, Seaborn, Matplotlib | [Github](#)

- Built a Python data pipeline to clean and preprocess 316,000+ records, improving reliability and analysis readiness.
- Implemented Random Forest and KMeans models using scikit-learn; achieved 83% accuracy.
- Optimized feature selection by reducing 44 traits to 2 composite scores.
- Wrote reusable analysis scripts and visualizations using Pandas, Matplotlib, and Seaborn.

PenguinSteps - Senior-Friendly Tech Support Website

May 2025 | React, CSS, Figma | [Website](#)

- Built a responsive React front-end with reusable components and accessibility-focused UI.
- Implemented client-side state management and component-based architecture.
- Won the “Most Accessible” Award for creating an inclusive tech-assistance platform for older adults.

SFU Admissions Management System

January – April, 2025 | Figma | [Mock-up 1](#) / [Mock-up 2](#) / [Mock-up 3](#)

- Led system design for a role-based admissions management platform supporting 3 stakeholder types.
- Translated functional requirements into wireflows and system logic.
- Coordinated deliverables across team members using Agile practices.
- Conducted benchmarking research and co-authored key report sections.

WORK EXPERIENCE

SFU COMPUTING SCIENCE PEER TUTOR

Current

- Assisted with debugging C++ and Python programs.
- Explained data structures, algorithms, and discrete math concepts clearly to CS students.
- Strengthened communication and technical problem-solving skills.

Stuffies Pastries

May 2023 – July 2024

- Consistently met or exceeded daily sales goals.
- Handled cash transactions and operated the POS system efficiently.
- Prepared and served specialty drinks, pastries, and ice cream.
